Hi Ingeborg,

This is very helpful. Thanks for getting back to me with this information.

Subject: RE: Study from Clarke Submission Re Container Evaluation

Hi Thuy and Ingeborg,

I have one question regarding the Clarke submission. There was originally a report that was submitted that had some redactions. We later received the unredacted report. Did ACB find any of the information in the unredacted version useful?

Thanks,

Kerry

Hi Thuy,

We've looked over the review and don't have any comments. We look forward to receiving the finalized review.

Hi Kerry
As promised, here is the draft review of Clarke's recent submission on the new containers
Let me know if you have comment/question.

Subject: FW: Study from Clarke Submission Re Container Evaluation

Hi Thuy,

We received the attached report from Clarke in support of their proposed change in container type. Could ACB please comment on the acceptability of the test method protocols described in this report in ascertaining whether this

container type would not have any PFAS migration into the container contents. This has been identified as a high priority action by our OPP Office Director.

Please let me know if you have any questions.

Thanks in advance,

Kerry

Kerry:

As per our conversation, attached is the study with MRID No 514364-03, "*Container Evaluation: Report of Results*" submitted by Clarke Mosquito Control Products, Inc. as part of the PFAS analysis.

Let me know if you need anything else.

Sincerely,
Maria
